Burnaby Mountain Community Educators

The project focused on enhancing the relationship between childcare and the Burnaby mountain community and services, we will use pedagogical narrations and BC Early Learning Framework to promote ECE's work in the Burnaby mountain community. By making children's learning visible (art displays, newsletters, workshops) and collaborating with other groups and faculties on campus, we hope to raise the profile of Early Childhood Educators in the community and build bridges between staff, students, families and educators (Community of Innovation Project Report, 2010).
