ECPN Conversations V: Part 2 *“This is so bad”*

Join early childhood educators Iryna Mykhaylova and Katina D’Onofrio with ECPN faculty pedagogist Michelle Pierce to discuss their experience of a living inquiry investigating bear scat with children and families. This conversation traces how the inquiry began, shares glimpses of the intentional invitations to children and families as this inquiry unfolded, and gestures toward ways pedagogical work unsettles dominant early childhood education practices.
